

A group of selected seniors at Walter Panas High School will participate in the National Assessment of Educational Progress (NAEP) on February 28, 2018. NAEP is the largest nationally representative and continuing assessment of what students know and can do in various subjects. It is administered by the National Center for Education Statistics, within the U.S. Department of Education. NAEP is different from our state assessment because it provides a common measure of student achievement across the country. The results are released as The Nation's Report Card, which provides information about student achievement to educators, parents, policymakers, and the public. We are excited that our school is participating in NAEP. We know that Walter Panas's students will show what our nation's students know and can do.
